Meeting Notes

- Shared small changes to the text content after proofreading through the website. Discussed how to publish page, decided to use Github pages and the student webserver. If student webserver breaks down Github pages is a backup.
- Started finalizing the website and went over each page to see what needed improvement
 - We finalized the source list, upload meeting notes to sources, added group members
 - Translated the website to english
 - Proofread every section and changes little bits to improve the content
 - Checked responsiveness on the website
 - Checked for colorblindness (used grayscale 100%)
 - Tested all sections of the page on mobile with and without JS.
- Sum-up at the end of the day: We improved the page where needed, and finalized all parts. We are ready to hand-in the assignment tomorrow, 1. of December. GOOD WORK TEAM :)!
